DETAILED ACTION

Prosecution is reopened for the instant application in response to the amendment filed May 9, 2008. Reopening of prosecution is authorized by the Technology Center Director. (MPEP 1214.04)

Reissue Applications

1. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:
2. The Reissue Declaration filed 5/9/08 failed to properly identify at least one 35 U.S.C.251 error. Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error. (MPEP 1414 II. (C)).
3. The errors mentioned and corrected in the reissue oath/declaration of 5/9/08 are not accurate (cannot be found in original claim 1) because the applicant's original claim 1 language is "three equal parts and joined together by hinges". The original claim 1 language is not consistent with the language "three equal length parts joined together by two hinges" as stated in the reissue oath of 5/9/08.

It is suggested that the applicant revise the reissue oath by replacing the first paragraph identifying the error with the following statement:

The reissue is to broaden the scope of claim 1 because less is claimed than the patentee had a right to claim. Each vertical leg member was limited to the "three equal parts and joined together by hinges". The intent was to have "at least three equal length parts and joined together by at least two hinges".

4. The reissue claims broaden the scope of the patented claims in at least one respect even though they are narrower in other respects. MPEP 1412.03(I). Therefore, the Reissue Declaration must be signed by all inventors (not the assignee). MPEP 1414.01 (III).
5. Claim 1 is rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
